

JBC Monthly Newsletter

March 2024

JBC UPDATES

- Please join us on March 22 for the **JBC Synergy Meeting** 12:30-1:30 over Zoom:
 - **Gregory McDermott M.D., M.P.H.** (BWH)
 - “Polygenic risk scores in RA research”
 - **Tiffany Hsu M.D., Ph.D.** (BCH)
 - “RNA exosome cofactor C1D restrains aberrant MDA5 signaling”
- Please join us on **April 4th at 4:30 PM in the Hale BTM First Floor Atrium** to celebrate our mentee-mentor matches for the 2024 **JBC Mentorship Program!** More details will be announced as we approach the date.
- **The JBC Data Club** has relaunched meetings and introduced Open Office Hours! Wednesday intensive meetings occur every 2-3 weeks with Open Office Hours from 2-4 on afternoons when there are no intensive meetings. Office Hour slots are One-To-One appointments with **Dr. Maria Gutierrez-Arcelus** (BCH) that are booked through this Calendly link: calendly.com/mgutierrez-jbc. If you are interested in attending these meetings, please email maria.gutierrez-arcelus@childrens.harvard.edu to be added to the distribution list!

The JBC Team:

- Peter Nigrovic, M.D.
Director (BCH & BWH)
- Jeffrey Sparks, M.D., M.M.Sc.
Multi-PI, Associate Director
- Elizabeth Karlson, M.D., M.S.
Associate Director

Human Biosamples Core:

- Jeffrey Sparks, M.D., M.M.Sc.
Director
- Lauren Henderson, M.D., M.M.Sc.
Associate Director BCH
- Deepak Rao, M.D., Ph.D.
Associate Director

Cellular Systems Core:

- Jim Lederer, Ph.D.
Director
- Kevin Wei, M.D., Ph.D.
Associate Director
- Maria Gutierrez-Arcelus, Ph.D.
Associate Director

JBC MEMBER NEWS

- The Rheumatology COVID-19 Study team led by **Drs. Jeffrey Sparks** and **Zachary Wallace** received a MGB Pillars of Excellence award for their innovative research collaboration across the Brigham and Women’s Hospital and Massachusetts General Hospital
- **Dr. Pui Lee** (BCH) was awarded a Rheumatology Research Foundation Innovative Research Award for his proposal entitled “IL-15 as a driver of cytokine storm in macrophage activation syndrome.”
- **Dr. Novalia Pishesha** (BCH) and **Dr. Peter Nigrovic** (BCH/BWH) were awarded a Rheumatology Research Foundation Innovative Research Award for their proposal entitled “Engineering alpaca-derived single domain antibody fragments that target class II MHC to induce antigen-specific tolerance in rheumatoid arthritis.”

- Ladouceur A, Clifford A, Ezdoglian A, Jamal S, Hudson M, **Sparks JA**, Roberts J, Ye C. The utility of laboratory investigations for the assessment and management of rheumatic immune-related adverse events. *Rheum Dis Clin*. 2024 (In Press).
- **Juge PA**, **Dellaripa PF**, **Sparks JA**. Pulmonary damage biomarkers for risk of rheumatoid arthritis-associated interstitial lung disease: Enabling early detection and risk stratification. *Arthritis Rheumatol*. 2024 Feb 15. doi: 10.1002/art.42827. Online ahead of print.
- **McDermott GC**, **Sparks JA**. Rheumatoid arthritis and bronchiectasis risk: Additional evidence linking autoimmunity and airways disease. *Chest*. 2024 (In Press).
- Ford JA, Cho MH, **Sparks JA**. Bi-directional association of RA and COPD: Linking arthritis, inflammation, smoking, airways disease, and emphysema. *Rheumatology*. 2024 (In Press).
- **Chang MH**, Fuhlbrigge RC, **Nigrovic PA**. Joint-specific memory, resident memory T cells, and the rolling window of opportunity in arthritis. *Nat Rev Rheumatol*. 2024 (In Press).

OPEN POSITIONS

The Nigrovic lab (BCH) is seeking new postdoctoral fellows in the fields of (1) non-coding genetic variants in human autoimmunity and (2) megakaryocyte-neutrophil emperipolesis using 2-photon microscopy and other methods. Please direct inquiries to peter.nigrovic@childrens.harvard.edu.

The Chang Lab is hiring for a postdoctoral position in the areas of T cell biology and human and animal models of arthritis. Please direct inquiries to margaret.chang@childrens.harvard.edu.

Please let us know if you would like your open positions posted here!
